Journal infographics

ecpr

The following infographics offer a statistical overview of ECPR's co-published journals.

Figures are taken from reports presented at our annual spring publications meetings.

We have made the infographics as accurate as we can while keeping them reader friendly.

However, journals and publishers record and report information in different ways, so like-for-like comparison is not always possible.

To find out more information about a journal, contact the editors directly.

Information in this document is representative of the period January – December 2025.

The publication process means that some figures may include data relating to previous years.
