Abstract

The Panel focuses on Papers, which aim to develop any of the five concepts associated with multiple streams - policy window, politics, problem and policy streams, and policy entrepreneurs -, and interactions among them. Conceptual Papers that generate new hypotheses or amend existing ones are particularly welcome as are empirical studies that focus on agenda or policy stability and that engage with the most recent developments of the MSF.

The Panel will be proposed to [S06 Advancing Frontiers in Policy Process Research: Integrating Theory and Empirical Inquiry](#).
