Abstract

Sound policy process research addressing policy change is produced when frameworks integrate theoretical reflections and use appropriate methods for operationalization. While this poses a variety of challenges (e.g., research design decisions), some frameworks seem to work better when applying specific theories or methods (e.g., social network analysis, QCA, meta-analysis). We welcome papers contributing to the question when and how to integrate theories, models, and methods.

To submit a proposal, you will need to create a MyECPR account and submit the following information by **16 February**:

- Your name, academic affiliation and email address
- The title of your paper
- An abstract of up to 500 words.
- 3 to 8 keywords
