

European Journal of Political Research publishes original and substantial contributions to the study of comparative European politics. EJPR also publishes short research notes, responses to previously published articles that are theoretically relevant, and state-of-the-field review articles on topics of particular relevance to the journal. It also publishes special issues and forum sections.

Specialisms include:

- European Politics
- International Relations
- Political Theory
- Qualitative and quantitative approaches to Political Studies
- Broad research relevant to the field

European Journal of Political Research is available
Online Only.
